

streamSAVE Dialogue Groups

Priority Action: BACS (Building Automation & Control Systems)

Agenda of Meeting 2 – Tuesday 18 May 2021 (3 to 4 pm CEST)

[Connection link](#)

PIN code for the meeting: 046626

Objectives of the meeting

The meeting aims at

- presenting and discussing a preliminary version of the streamSAVE calculation methodology for BACS, and more specifically the **BACS factors**;
- discussing the **baseline components** and **indicative values** for savings calculations, as well as **data** sources and data availability, especially about current (and future) BACS efficiency classes, current (and future) building energy use for heating, costs and lifetime.

The focus is on the use of BACS for heating in residential and non-residential buildings.

Agenda

15:00-15:05	Introduction of the meeting and quick tour de table
15:05-15:20	Overview of the calculation methodology for energy savings from BACS, with a focus on heating (residential and non-residential buildings), by Kelsey van Maris, VITO
15:20-15:25	Q&A on key issues of the calculation methodology
15:25-15:40	Insights on baseline components, indicative values and data sources
15:40-15:55	Open discussions on data availability, what level of detail is needed/can be achieved
15:55-16:00	Conclusions and next steps

(All times are in CEST)

The meeting will be moderated by Kelsey van Maris (VITO, Belgium) and Christos Tourkolias (CRES, Greece).

Discussions will be under Chatham House Rule: the minutes will not mention any name or country. All discussion points included in the minutes will be anonymized.

You can start the discussions by signing up to the streamSAVE's online forum:

<https://streamsave.flexx.camp/forum>

Contact < dialogues@streamsave.eu > for any question.

streamSAVE is a 36-month Horizon 2020 project aiming to streamline energy savings calculations under Articles 3 and 7 of the Energy Efficiency Directive (EED). For more details, see: www.streamsave.eu

What is a Dialogue Group?

A Dialogue Group gathers experts and policy officers from various EU Member States to share experience and discuss technical and economic issues related to the savings calculations for a given Priority Action. The streamSAVE team facilitates the exchanges by organising web-meetings, providing an online forum and summarizing the main lessons learnt from the discussions.

What do I get from taking part in a group?

- Better knowledge about technical and economic issues related to savings calculations, and about practices in other countries
- Peers' and experts' support to answer my questions
- Opportunity to give my views on the methods developed by the streamSAVE project

What involvement is expected from me?

- Taking part in Priority Action specific online web-meetings
- Using the online forum to ask questions or share information with my peers
- Making a presentation to share experience (on a voluntary basis)

The 5 Priority Actions addressed in the first cycle of Dialogue Groups

HEAT
RECOVERY

BUILDING
AUTOMATION
& CONTROL
SYSTEMS

REFRIGERATION
SYSTEMS

ELECTRIC
VEHICLES

LIGHTING
SYSTEMS

How can I join a Dialogue Group's meeting?

You can access the streamSAVE online forum by creating your account (if not done yet) at the streamSAVE platform: <https://streamsave.flexx.camp/signup-0818ml>

Or you can send an email to: < dialogues@streamsave.eu >

Discussions continue on streamSAVE's online forum

The online forum can be used to continue the discussions, ask questions, share information, etc.: <https://streamsave.flexx.camp/forum>

For more information, clarifications and support please send an email to dialogues@streamsave.eu.
